STRATEGIC PRIORITIES

Disasters and crises	People reached with livelihoods support	1.5M
	People reached with disaster risk reduction	1.3M
	People reached per year with support services, in-kind, cash and voucher assistance for emergency response and recovery	244,000
	People reached with shelter support	129,000
	Percentage of humanitarian assistance delivered using cash and vouchers	
Health and wellbeing	People reached by National Societies with contextually appropriate health services	3.2M
	People reached by National Societies with contextually appropriate water, sanitation and hygiene services	626,000
	People donating blood	374,000
	People trained by National Societies in first aid	9,000
Migration and displacement	Migrants and displaced persons reached with services for assistance and protection	215,000
Values, power and inclusion	People reached by protection, gender and inclusion programming	590,000
	Is Community Engagement and Accountability integrated and institutionalized in the National Society policies, operations, and procedures (with clear benchmarks)?	Yes

ENABLING FUNCTIONS

Accountability and agility	National Society has a PSEA policy to enforce prevention and support survivors (cumulative)	Yes

OVERALL PROGRESS

Context

Kenya continues to experience persistent humanitarian challenges, with recurring disasters such as droughts and floods, significantly impacting livelihoods and worsening widespread food insecurity across counties. Despite the crucial role of agriculture in Kenya's economy, the country has grappled with severe food insecurity issues, influenced by various factors. The increasing frequency and intensity of extreme weather events driven by the climate crisis, have also heightened social and economic risks for a considerable segment of the population. Given that a substantial portion of Kenya's low-income population relies on agriculture for sustenance, stagnation in agricultural outputs continues to have profound ramifications.

Limited access to adequate and nutritious food has resulted in over 10 million people experiencing food insecurity and malnutrition, with 2 to 4 million requiring urgent food assistance. The escalation of food prices and weakened purchasing power have worsened the situation, deepening poverty levels and impacting the nutritional and psychological well-being of communities.

Key achievements

Climate and environment

In 2023, the Kenya Red Cross Society implemented projects to improve livelihoods through climate-smart agriculture in Tana River County, provided livelihoods support and new farming skills in Taita Taveta, and carried out disaster risk reduction interventions in Nairobi and Mombasa, benefiting over 88,000 people.

Disasters and crises

For the period January to December 2023, the Kenya Red Cross Society implemented various projects in collaboration with multiple partners to enhance community resilience, support livelihoods, and provide disaster risk reduction and drought response interventions across several counties in Kenya.

Health and wellbeing

The Kenya Red Cross Society prepared for a potential Ebola outbreak with community-based surveillance and the provision of mental health support. It trained volunteers and distributed educational materials in high-risk areas. It also emphasized epidemic preparedness, integrating community-based surveillance reporting with national systems, and supporting the COVAX vaccine rollout and HIV/AIDS interventions. The National Society also provided non-communicable disease care and improved sexual and reproductive health in several counties. Additionally, it implemented projects focused on water, sanitation and hygiene (WASH) complemented with hygiene promotion.

Migration and displacement

The National Society provided support to migrant communities through Restoring Family Links services.

Values, power and inclusion

In 2023, Kenya Red Cross provided life skills training to youth, conducted protection, gender and inclusion training, trained community health volunteers in child protection, and improved prevention of gender-based violence interventions. It also focused on community engagement and accountability initiatives.

Enabling local actors

The Kenya Red Cross Society undertook initiatives to strengthen its humanitarian role. This included enhancing public awareness and visibility through collaboration with national media to report on emergency responses and community needs. It also highlighted the pivotal contributions of frontline responders and volunteers in disaster relief efforts. By implementing a robust monitoring and evaluation framework, the National Society strengthened its tracking of project outcomes, supported by risk management plans and monitoring mechanisms across all operations.

IFRC NETWORK ACTION

ONGOING EMERGENCY RESPONSE

For real-time information on emergencies, see [IFRC Go Kenya](#)

1

Emergency Operation	Revised Africa Hunger Crisis Emergency Appeal 2023-2024
Appeal number	MGR60001
People affected	People affected/at risk: 157 million people across sub-Saharan Africa (143m in the 25 countries covered in this operation/watch list) 1.61 million people in Kenya
Duration	09 September 2021 to 31 December 2024
Funding requirement	Total IFRC funding requirement through the Appeal: CHF 232.5 million Total Federation-wide funding requirements: CHF 318 million Funding requirement for Kenya: CHF 25 mil to assist 800,000 people (IFRC: CHF 10 mil; Federation-wide: CHF 25 mil)
Link to emergency appeal	Revised Africa Hunger Crisis Emergency Appeal
Latest Operational Strategy	Kenya Country Plan of Action
Latest Operation Update	Operation No. 5

The Kenya Red Cross Society has been addressing the country's food security crisis through an IFRC Emergency Appeal since September 2021, later incorporated into the Regional Hunger Crisis Emergency Appeal in October 2022. Now extended until the end of 2024, the [Africa Hunger Crisis Appeal](#) responds to the prolonged and deepening food crisis across the region.

This Revised Regional Emergency Appeal is building on strong national response plans and is coordinating activities in WASH, cash, health and nutrition, and livelihoods support to address urgent needs in the region's Red-level Emergency, including in Kenya. It is aiming to assist 800,000 people in Kenya with a funding request of CHF 25,000,000. The IFRC is also mobilizing a 'Zero Hunger Cell' to oversee the Hunger Crisis response across Africa.

Short description of the emergency operational strategy

The operation aligns with the IFRC's Pan-African Zero Hunger Initiative, offering integrated support in livelihoods, health and WASH, while also addressing protection, inclusion, community engagement and environmental sustainability. The highlights of the assistance include support to affected communities to strengthen their livelihoods and improve food security through irrigation schemes and agricultural training. Health risks are reduced with integrated services, including disease control and infant feeding training. Access to safe drinking water, sanitation services and related training is improved. Support also covers risk reduction, climate adaptation and environmental education, with a focus on community engagement and inclusivity to address diverse needs.

For the period [July 2023 to March 2024](#), the following support was provided:

Food security and livelihoods

Multi-purpose cash was provided along with food distribution to support households.

Health and nutrition

Training was delivered in Maternal-Infant and Young Child Nutrition and health promotion. Mental health and psychosocial support were also provided to individuals in need.

Water, sanitation and hygiene

Improved drinking water sources were established, and water treatment supplies were distributed.

Protection, gender and inclusion

Training in protection, gender and inclusion minimum standards was conducted, and services were provided to support these areas. Support was also provided to survivors of sexual and gender-based violence.

Community engagement and accountability

A feedback platform was maintained for community input and all feedback was addressed.

STRATEGIC PRIORITIES

Climate and environment

Communities and Red Cross and Red Crescent staff and volunteers undertake urgent action to adapt to the rising and evolving risks from the climate and environmental crises, adopting environmentally sustainable practices that contribute to climate change mitigation

Progress by the National Society against objectives

In 2023, the Kenya Red Cross Society implemented a climate-smart agriculture project in the Tana River County and trained the targeted community in farming technologies and climate-smart agriculture. The project also promoted sustainable agriculture and forestry. Through an '[Integrated Food Security and Livelihoods](#)' programme, the National Society provided the community members in Taita Taveta with livelihoods support. It reached farmers with farm inputs and new farming technologies, as well as post-harvest management. The National Society also implemented a resilience building project in Nairobi and Mombasa counties. It supported 88,281 people with disaster risk reduction interventions.

IFRC network joint support

The IFRC supported the National Societies in designing programmes that contributed to the Pan-African Tree Planting and Care initiative.

The **British Red Cross** provided the National Society with financial support for its climate-smart agriculture project.

The **Danish Red Cross** supported the Kenya Red Cross Society with funds for its 'Urban Community Resilience Building' project.

The **Finnish Red Cross** provided the National Society in its projects such as the climate-smart agriculture project.

Disasters and crises

For real-time information on emergencies, see [IFRC Go Kenya](#)

In 2023, there IFRC Disaster Response Emergency Funds ([IFRC-DREF](#)) was approved.

1 Kenya Floods

NAME OF OPERATION	Kenya Floods
MDR-CODE	MDRKE056
DURATION	4 months (5 April 2023 to 31 August 2023)
FUNDING ALLOCATION	CHF 449,557
PEOPLE TARGETED	48,270 people
LATEST OPERATION UPDATE	DREF Operations Update

The DREF allocation of CHF 449,557 in April 2023 supported the Kenya Red Cross Society in aiding 48, 270 people affected by floods and flash floods across the northern and southern parts of the country. The support included shelter, livelihoods support and water, sanitation and hygiene among others.

2. Kenya - Mass Casualty Incident in Kilifi

NAME OF OPERATION	Kenya - Mass Casualty Incident in Kilifi
MDR-CODE	MDRKE057
DURATION	3 months (17 May 2023 to 31 August 2023)
FUNDING ALLOCATION	CHF 123,686
PEOPLE TARGETED	3,000 people
LATEST OPERATION UPDATE	DREF Operations Update

The DREF allocation of CHF 123,686 in May 2023 supported the Kenya Red Cross Society in aiding 3,000 survivors of a mass casualty in and around Kilifi. The support included rescue, first aid, health services, mental health and psychosocial support and restoration of family links among others.

3. El Nino Floods

NAME OF OPERATION	El Nino Floods
MDR-CODE	MDRKE058
DURATION	4 months (11 November 2023 to 31 March 2024)
FUNDING ALLOCATION	CHF 749,939
PEOPLE TARGETED	150,000 people

LATEST OPERATION UPDATE

[DREF Operations Update](#)

Note: This DREF-supported operation is now an [Emergency Appeal \(MDRKE058\)](#)

The DREF allocation of CHF 749,939 in November 2023 supported the Kenya Red Cross Society in aiding 150,000 people affected by floods. The support included shelter, water, sanitation and hygiene services, health and livelihoods among others.

Communities take action to increase their resilience to evolving and multiple shocks and hazards

Progress by the National Society against objectives

In 2023, the Kenya Red Cross Society collaborated with the International Organization for Migration (IOM) to implement a gender and vulnerability sensitive [disaster risk reduction](#) and community resilience project in the Turkana county. The National Society constructed an Emergency Operation Centre in Lamu to strengthen community resilience to various disasters and crises by training community-based disaster response teams. Additionally, the Kenya Red Cross Society supported people in disaster risk reduction interventions through its urban community resilience building project.

IFRC network joint support

The **Danish Red Cross** supported the National Society to implement a project aimed at providing livelihoods support and conducting resilience building activities in urban settlements.

People affected by crises and disasters have their needs met through food distributions and multi-purpose cash grants

Progress by the National Society against objectives

The National Society launched a drought response project to improve resilience to drought emergencies among communities in the arid and semi-arid counties. Through this project it supported affected communities with [food security](#) through [cash and voucher assistance](#), water, sanitation and hygiene services, as well as health and nutrition. Additionally, the Kenya Red Cross Society carried out a drought response inclusion project, supporting people across the Tharaka Nithi, Meru and Turkana with cash transfers for basic needs. Similarly, the National Society supported drought-affected communities through cash and voucher assistance in Garissa and Marsabit, reaching 4,300 people.

IFRC network joint support

The **IFRC** supported the Kenya Red Cross Society through the Hunger Crisis Appeal. The Emergency Appeal seeks a total of 8 million CHF to deliver humanitarian assistance to 500,000 people (100,000 households) over a period of 18 months to address the current drought crisis in Kenya.

The **American Red Cross** supported the Kenya Red Cross Society with the implementation of various operations providing livelihoods support and cash and voucher assistance.

The **British Red Cross** also supported the Kenya Red Cross Society in its Kilifi drought response project with livelihoods activities.

The **Norwegian Red Cross** supported the National Society to provide cash and voucher assistance to drought affected communities.

The **ICRC** provided the Kenya Red Cross Society with financial support to implement an economic security project reaching households in Lamu and Garissa. The project offered village savings and loans training and enrolled students in a vocational education programme.

Health and wellbeing

The health and dignity of communities in emergencies and disease outbreaks are maintained by providing access to appropriate health services

Progress by the National Society against objectives

The Kenya Red Cross Society prepared for the potential spread of Ebola following an outbreak in Uganda. It implemented risk communication and community engagement, community-based surveillance, safe and dignified burial preparations, mental health and psychosocial support, and ambulance service preparedness. It trained volunteers in community-based surveillance, distributed information, education and communication materials and reached 661,957 people through community risk awareness sessions. The Kenya Red Cross Society also collaborated with the national Ministry of Health to integrate its community-based surveillance reporting platform with the government's event-based surveillance system.

The National Society also trained master trainers on epidemic preparedness. The training was cascaded to community health volunteers from 20 new health units across four counties. In the Bomet county, the Kenya Red Cross Society reached 45,364 beneficiaries through health messaging on epidemic and priority diseases in community health units and conducting monthly mobilization exercises. Through its Community Epidemic Pandemic Preparedness Programme, the Kenya Red Cross Society continued to emphasize community-based surveillance with a focus on epidemic potential diseases and zoonotic diseases such as anthrax and rabies. Additionally, the National Society positioned local trainers in high-risk counties and trained ambulance service operators in infection prevention and control.

IFRC network joint support

The IFRC provided financial support to the Kenya Red Cross Society for the implementation of interventions aimed at reducing the risk of an Ebola Virus Disease outbreak in Kenya. It also supported the National Society in linking its community-based surveillance reporting platform with the Kenyan government's event-based surveillance system.

The health and wellbeing of communities are protected and improved through access to sustainable, affordable, appropriate, and quality health services across the life course

Progress by the National Society against objectives

In 2023 the Kenya Red Cross Society supported the rollout of COVAX vaccine in nine hard-to-reach counties, vaccinating 35,964 people. Through its HIV and AIDS intervention project, it reached beneficiaries nationwide. It also provided non-communicable disease care for crisis-affected populations in Kalobeyei refugee settlements, Nairobi, Tana River,

and Kilifi counties. Additionally, to improve sexual and reproductive health and gender-based violence outcomes for women in Tana River and Kilifi, the National Society conducted sensitization sessions and community dialogues.

IFRC network joint support

The IFRC provided the National Society with technical support in the development of standard operation procedures for safe and dignified burials of the deceased.

The **British Red Cross** supported the Kenya Red Cross Society by funding its Safeguarding Project in Taita Taveta. The project supported 11,333 people with safeguarding services. It also supported the National Society through a Covid-19 vaccine roll out project in Bomet.

The **Danish Red Cross** provided the Kenya Red Cross Society, with financial support for non-communicable disease care in crisis-affected populations. It also supported the National Society with promoting sexual and reproductive health and rights in vulnerable communities.

Communities have increased access to affordable, appropriate and environmentally sustainable water, sanitation and hygiene services

Progress by the National Society against objectives

In the field of water, sanitation and hygiene (WASH) the Kenya Red Cross Society implemented its 'Sustainable Management and Access to Water and Sanitation in the Arid and Semi-arid Lands Programme' supporting a total of 40,732 people in Isiolo, through training in community-led total sanitation ([CLTS](#)) and WASH. It also reached people with hygiene promotion campaigns through its WASH project in Lamu and Garissa.

IFRC network joint support

The IFRC provided the National Society with financial and technical support for its interventions.

The ICRC supported the National Society in the implementation of WASH projects in Lamu and Garissa.

Migration and displacement

Migrants and displaced persons have access to humanitarian assistance and protection at key points along migratory routes as well access to durable solutions when appropriate

Progress by National Society against objectives

The Kenya Red Cross Society provided protection and assistance to Somali refugees in Dadaab. It also offered tracing services in Kakuma and Kalobeyei and supported movement of asylum seekers.

IFRC network joint support

The IFRC provided the Kenya Red Cross Society with technical and financial support for its interventions.

The ICRC provided financial support to the National Society for a [Restoring Family Links](#) project through which a total of 754 women refugees were reached.

Values, power and inclusion

The IFRC Network contributes to a positive change in communities through wider understanding, ownership, dissemination and application of Fundamental Principles and humanitarian values, focusing especially on young people's knowledge, skills and behaviour

Progress by the National Society against objectives

In 2023, the Kenya Red Cross Society provided life skills training to youths in Mukuru, through a community development project. The National Society provided protection, gender and inclusion training in Taita Taveta. It trained community health volunteers in child protection.

IFRC network joint support

The **Danish Red Cross** provided financial support to the Kenya Red Cross Society for the implementation of a community development project in the Mukuru county.

The IFRC Network is safe and inclusive, ensuring dignity, access, participation, and safety for people of all identities

Progress by the National Society against objectives

Through a project focused on improving the gender-based violence outcomes in Tana River and Kilifi counties, the Kenya Red Cross Society reached women of reproductive age, including those living with disabilities. It also conducted awareness sessions on gender-based violence in Samburu, Bungoma and Kilifi counties. This project aimed to reduce gender-based violence and harmful practices such as female genital mutilation.

IFRC network joint support

The **IFRC** provided the Kenya Red Cross Society with technical and financial support for its interventions.

The **British Red Cross** supported the National Society in its efforts to institutionalize protection, gender and inclusion.

People and communities, vulnerable to and affected by crises, are empowered to influence decisions affecting them and trust the IFRC Network to serve their best interest

Progress by the National Society against objectives

The Kenya Red Cross Society also focused on community engagement and accountability, and feedback within beneficiary communities. It developed specific plans, guidelines, and operational procedures to ensure active community involvement in designing systems for early action, anticipation and planning.

IFRC network joint support

The **IFRC** supported the Kenya Red Cross Society in mainstreaming community engagement and accountability.

ENABLING LOCAL ACTORS

Strategic and operational coordination

IFRC membership coordination

IFRC membership coordination involves working with member National Societies to assess the humanitarian context, humanitarian situations and needs; agreeing on common priorities; jointly developing common strategies to address issues such as obtaining greater humanitarian access, acceptance and space; mobilizing funding and other resources; clarifying consistent public messaging; and monitoring progress. This also means ensuring that strategies and programmes in support of people in need, incorporate clarity of humanitarian action, links with development assistance, and efforts to reinforce National Societies in their respective countries, including through their auxiliary role.

In 2023, the Somali Red Crescent Society was supported by several participating National Societies including, the **American Red Cross, British Red Cross, Danish Red Cross, Finnish Red Cross, Italian Red Cross and Norwegian Red Cross.**

Movement coordination

The Kenya Red Crescent Society ensures regular exchanges with the IFRC, the International Committee of the Red Cross and participating National Societies, for the alignment of support and action between Movement partners. In times of emergencies, closer coordination is organized. This is carried out in line with the Strengthening Movement Coordination and Cooperation ([SMCC](#)) principles, and the newly adopted [Seville Agreement 2.0](#).

The ICRC is present in the South-Central Zone, Hargeisa in Somaliland, and Garowe in Puntland, and focuses primarily on economic security, health and water and habitat programmes. It works alongside the National Society in areas affected by conflict, responding through rapid assessments, cash and voucher assistance, and water, sanitation and hygiene.

External coordination

The National Society worked with multiple UN agencies, including UNHCR for refugee programmes, UNICEF for nutrition, epidemics, and child protection, UNFPA for reproductive health and gender-based violence, WHO for epidemic response, and UNOCHA for coordination and training. It also collaborated with FAO on livestock programs, IOM for shelter sector partnerships, and received support from the UK Space Agency for space satellite technology development. The Kenya Red Cross Society was also part of the Eastern and Southern Africa Risk Communication and Community Engagement Technical Working Group chaired by UNICEF and IFRC, and the Movement-wide working group for CEA in Africa. It also joined the Horn of Africa Drought and Hunger Crisis Alliance for African Partnership (AAP) working group, chaired by UNOCHA.

The Kenya Red Cross Society collaborated with the National Disaster Operations Centre (NDOC) for humanitarian emergencies and the National Drought Management Authority (NDMA) for drought management. It also co-chaired the Kenya Cash Working Group. Partnerships with state actors included the Hunger Safety Net Programme (HSNP) and the Ministry of Health (MoH) for nutrition interventions.

Additionally, the Kenya Red Cross Society participated in the Health Promotion Stakeholders working group, facilitated by the Ministry of Health, focusing on advocacy, communication, social mobilization, and risk communication.

National Society Development

Progress by the National Society against objectives

The National Society focused on financial sustainability through the IFRC ICRC National Society Investment Alliance ([NSIA](#)) fund and the IFRC Capacity building fund ([CBF](#)). It also supported capacity development of its branches and staff through the regional and branch Income Generating Activities (IGA) fund. This initiative aimed to further strengthen the National Society's financial base and operational capabilities. The Kenya Red Cross also developed a concept note for a regional IFRC Reference Centre that it will be hosting. The concept note focuses on issues related to stronger governance and financial sustainability.

IFRC network joint support

The IFRC supported the Kenya Red Cross Society in the development of a concept note aimed at addressing issues related to stronger governance and financial sustainability. It also supported the National Society in acquiring the NSIA and CBF grants.

The **Danish Red Cross** supported the National Society with national society development, innovation, youth programming, forecast-based actions and mental health.

The ICRC provided the National Society with financial support for strengthening the capacity of its staff and volunteers to respond effectively to disasters and emergencies, particularly those arising from armed conflict or violence.

Humanitarian diplomacy

Progress by the National Society against objectives

In 2023, the Kenya Red Cross Society implemented several key initiatives to strengthen its position as a leading humanitarian actor in the country. One of the main efforts was building public awareness and visibility for its role in responding to emergencies. This effort aimed to enhance its brand and credibility in Kenya. The Kenya Red Cross Society collaborated with national media to provide updates on emergency responses and highlight the needs of affected communities. It also collected impactful stories to showcase the responders and volunteers on the frontlines, emphasizing their crucial role in helping communities during the relief and recovery phases of disasters.

IFRC network joint support

The IFRC provided the Kenya Red Cross Society with financial and technical assistance.

Accountability and agility (cross-cutting)

Progress by the National Society against objectives

In 2023, the Kenya Red Cross Society Implemented a monitoring and evaluation framework for all projects and programmes to track outcomes and outputs disaggregate data appropriately. It also developed a risk management plan and established a risk monitoring mechanism for all operations. Additionally, it focused on quality assurance, accountability, as well as planning, monitoring, evaluation and reporting (PMER).

IFRC network joint support

The IFRC supported the Keny Red Cross Society in the enhancement of its information management practices. It also promoted data and digital innovation and fostered data and digital literacy for improved decision-making and operational efficiency.

The International Federation of Red Cross and Red Crescent Societies (IFRC)

is the world's largest humanitarian network, with 191 National Red Cross and Red Crescent Societies and around 15 million volunteers. Our volunteers are present in communities before, during and after a crisis or disaster. We work in the most hard to reach and complex settings in the world, saving lives and promoting human dignity. We support communities to become stronger and more resilient places where people can live safe and healthy lives, and have opportunities to thrive.

DATA SCOPE AND LIMITATIONS

- **Missing data and breakdowns:** National Societies have diverse data collection systems and processes that may not align with the standardized indicators. Data may not be available for some indicators, for some National Societies. This may lead to inconsistencies across different reporting tools as well as potential under or over-estimation of the efforts led by all.
- **Reporting bias:** The data informing this Federation-wide overview is self-reported by each National Society (or its designated support entity) and which is the owner and gatekeeper, and responsible for accuracy and updating. IFRC tries to triangulate the data provided by the National Societies with previous data and other data in the public domain.
