

# CAPE VERDE

## 2025 IFRC network country plan **extract**

Funding Requirement **CHF 3M**

12 December 2024

### In support of the Red Cross of Cape Verde

**19**

National Society  
branches

**46**

National Society  
local units

**134**

National Society  
staff

**2,185**

National Society  
volunteers

### People to be reached

**49,000**

Climate and  
environment

**223,000**

Disasters  
and crises

**150,000**

Health and  
wellbeing

**100**

Migration and  
displacement

**4,000**

Values, power  
and inclusion

### IFRC network multi-year focus

#### Longer term needs

- Food security
- Disaster risk management
- Climate change adaptation
  - Health and WASH
- Migration and displacement-related needs

#### Capacity development

- Internal systems strengthening
  - Communications
- Financial sustainability and resource mobilization
  - Volunteers and youth management
  - Digital transformation

### Key country data links

**INFORM Severity rating** **Very High**

**INFORM Climate Change Risk Index** **Very Low**

**Human Development Index rank** **131**

**World Bank Population figure** **599,000**

**World Bank Population below poverty line** **35.2%**

# NATIONAL SOCIETY PROFILE

As per 2024 Plan. To be updated in full 2025 Plan, as per need

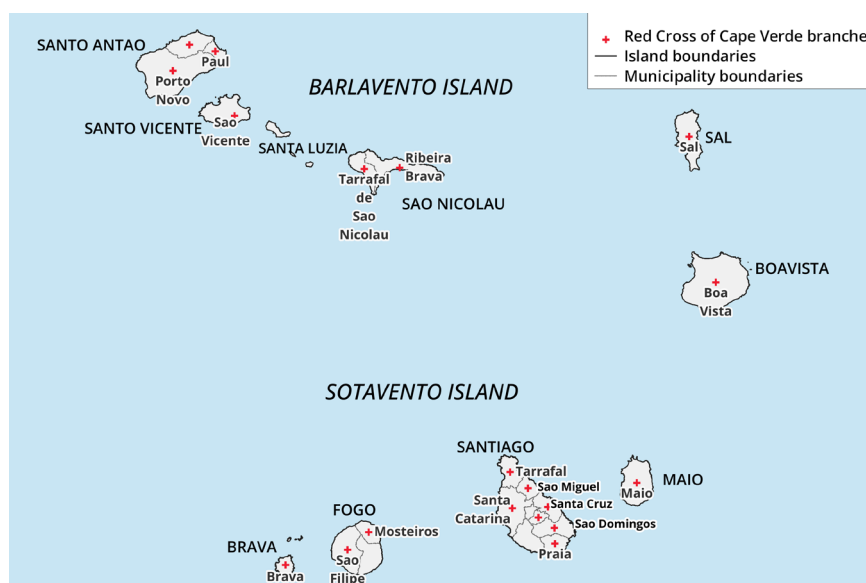

The **Red Cross of Cape Verde** was established by decree in 1975 and was admitted to the International Federation of Red Cross and Red Crescent Societies (IFRC) in 1985. It was the first humanitarian organization to exist in Cape Verde. Following the accession of the state of Cape Verde to the Geneva Conventions in 1984, the National Society has been recognized by the Cape Verdean state as an auxiliary to the public authorities in the humanitarian field, and in support of the military and health services.

The Red Cross of Cape Verde works throughout the country, on all nine inhabited islands and throughout the 22 administrative municipalities. It acts in various fields such as disaster risk management, health and wellbeing and migration and displacement. The National Society's mission is to prevent and alleviate human suffering impartially, and without any discrimination of nationality, race, sex, class, religion or political ideologies. In compliance with the seven Fundamental Principles of the International Red Cross and Red Crescent Movement, its mandate is to:

- Act on behalf of the victims of war, civilian or military- in the event of armed conflict, and prepare in times of peace to intervene as an auxiliary to the public services in the fields provided for by the Geneva Conventions

- Contribute to the improvement of people's health and wellbeing, prevention of diseases and the alleviation of human suffering through training and community assistance programmes adapted to the needs and living conditions of individuals
- Organize emergency assistance services for disaster victims
- Recruit, train and sensitize staff and volunteers as necessary to carry out the tasks entrusted to them
- Promote the participation of children and young people in Red Cross activities
- Disseminate the Fundamental Principles and humanitarian values of the Red Cross and Red Crescent Movement and international humanitarian law with a view to developing the ideals of peace, respect and mutual understanding among the population, especially among children and youth

In 2023, the Red Cross of Cape Verde reached approximately 4000 people through its long-term services and development programmes over time and almost 45,000 people through its disaster response and early recovery programmes.

*The map does not imply the expression of any opinion on the part of the IFRC or the National Society concerning the legal status of a territory or its authorities*

## The International Federation of Red Cross and Red Crescent Societies (IFRC)

is the world's largest humanitarian network, with 191 National Red Cross and Red Crescent Societies and around 16 million volunteers. Our volunteers are present in communities before, during and after a crisis or disaster. We work in the most hard to reach and complex settings in the world, saving lives and promoting human dignity. We support communities to become stronger and more resilient places where people can live safe and healthy lives, and have opportunities to thrive.

### About the plan

*This extract will be replaced by the full plan soon.*

The plan reflects the priorities of the host National Society, the IFRC and National Societies providing international support, for 2025 and subsequent years. It is aligned with IFRC [Strategy 2030](#), representing the collective ambitions of the IFRC membership, and is the result of a joint planning process and will serve for joint monitoring and reporting. It will be revised on an annual basis to adjust priorities and funding requirements to the needs in-country.

### Explanatory note on funding requirements

- The total funding requirements show what the IFRC network seeks to raise for the given year through different channels: funding through the IFRC, through participating National Societies as bilateral support, and through the host National Society from non-IFRC network sources. All figures should include the administrative and operational costs of the different entities
- Host National Society funding requirements not coming from IFRC network sources can comprise a variety of sources, as demonstrated when reporting on income in the [IFRC Federation-wide Databank and Reporting System](#)
- Participating National Society funding requirements for bilateral support are those validated by respective headquarters, and often represent mainly secured funding
- IFRC funding requirements comprise both what is sourced from the IFRC core budget and what is sought through emergency and thematic funding. This includes participating National Societies' multilateral support through IFRC, and all other IFRC sources of funding
- Figures for the years beyond 2025 most often represent partial requirements that are known at time of publication. Many National Societies have annual internal approval processes for funding requirements, and lower figures do not mean a decrease in funding requirements in future years
- Missing data and breakdowns: data may not be available from all IFRC network members for funding requirements. This may lead to inconsistencies across different reporting tools as well as potential under-estimation of the efforts led by all
- Reporting bias: the data informing this Federation-wide overview is self-reported by each National Society (or its designated support entity) which is the owner and gatekeeper, and responsible for accuracy and updating. IFRC tries to triangulate the data provided by the National Societies with previous data and other data in the public domain
