Q1. OVERALL PERFORMANCE

Context

The humanitarian situation in Haiti between January and June 2025 has been extremely challenging, driven by escalating violence, widespread displacement and severe socio-economic pressures. Haiti ranks 166 out of 193 countries on the 2023 Human Development Index and recorded an inflation rate of 26.9 per cent in 2024. Violence has spread beyond Port-au-Prince into central regions, causing killings, kidnappings and sexual violence, with over 2,680 deaths reported between January and May. Nearly 1.3 million people are now internally displaced, a 24 per cent increase since December 2024, disrupting education for thousands of children, 15 per cent of whom cannot attend school. Surveys show that 21 per cent of children fled their homes and 14 per cent saw family members leave the country in search of safety.

Food insecurity has reached unprecedented levels, with 5.7 million people, 51 per cent of the population, classified as acutely food insecure, including 2.1 million in Emergency and 8,400 in Catastrophe, according to the latest IPC update. Access to services has deteriorated sharply, with only 24 per cent of health facilities operational in the Metropolitan Area of Port-au-Prince and nearly 1,000 schools closed since mid-January.

Key achievements

Climate and environment

The Haiti Red Cross Society advanced the Global Early Warnings for All initiative (EW4ALL) to strengthen community knowledge and rapid response to hazards. From 18 to 20 March 2025, it organized workshops at the Northern Departmental Emergency Operations Centre with the Haitian Permanent Secretariat for Disaster Risk Management, the World Bank, the National Telecommunications Council and the World Meteorological Organization to validate operational plans for alert systems. Simulation exercises tested SMS alerts, identifying gaps in reaching vulnerable populations. The National Society also contributed to a gap analysis and participated in consultation workshops to improve coordination and update response plans.

Disasters and crises

In the first half of 2025, the Haiti Red Cross Society continued to respond to armed violence in Haiti through the IFRC Disaster Response Emergency Fund (IFRC-DREF) allocation of CHF 686,691. The assistance included multi-purpose cash transfers, first aid, ambulance services, psychosocial support, sanitation facilities, hygiene kits and awareness sessions on the prevention gender-based violence and protection against sexual exploitation and abuse. Additionally, the National Society strengthened disaster preparedness, coordinated Movement support and advanced the project 'Scaling Up Local Action: Immediate Relief and Strengthened Preparedness for Vulnerable Populations in Haiti'.

Health and wellbeing

The Haiti Red Cross Society continued psychosocial support for internally displaced persons through activities such as Tè Malè, promoting Psychological First Aid and resilience. Volunteers trained in psychosocial support delivered targeted assistance, while capacity-building included training in first aid, epidemic control, Safer Access and violence de-escalation.

Values, power and inclusion

The National Society trained volunteers in Community Engagement and Accountability and Safer Access and organized community meetings at sites sheltering internally displaced people.

Enabling local actors

For the period from January to June 2025, the Haiti Red Cross Society improved coordination between health and civil protection authorities and communities, strengthened links between emergency response and development programmes and promoted humanitarian diplomacy through awareness, negotiation and formal agreements to ensure vulnerable people's interests were considered by decision-makers.

Q2. CHANGES AND AMENDMENTS

In this reporting period, no changes or amendments were made by the National Society

Q3. MEASURING RESULTS OF THE IFRC NETWORK ACTION

STRATEGIC PRIORITIES

Climate and environment

Progress by the National Society against objectives

During this reporting period, the Haiti Red Cross Society implemented activities under the Global [Early Warnings for All initiative \(EW4ALL\)](#) to strengthen community knowledge of disaster risks and improve their ability to cope with hazards. The National Society worked to reduce the vulnerability of at-risk populations to hazards and extreme events by providing appropriate information on threats and unforeseen circumstances. At the same time, the National Society aimed to develop a rapid and targeted response based on available information, including early warning data.

From 18 to 20 March 2025, the Haiti Red Cross Society organized workshops at the Northern Departmental Emergency Operations Centre as part of the [Early Warnings for All programme](#). These sessions brought together key stakeholders, including the Haitian Permanent Secretariat for Disaster Risk Management, the World Bank, the National Telecommunications Council and the World Meteorological Organization. The workshops focused on analysing and validating operational plans to optimize mechanisms for monitoring, processing and transmitting alert data. The validated plans defined critical steps in the alert process, from hazard detection to information dissemination and specified roles and responsibilities, communication channels, intervention timelines and tools to ensure a rapid and coordinated emergency response. On 20 March, simulation exercises were conducted where mobile phone companies sent SMS alerts to targeted areas to test the effectiveness of this dissemination channel. The exercise identified areas for improvement in reaching vulnerable populations during disasters.

The Haiti Red Cross Society contributed to a gap analysis on early warning systems, identifying needs in local response capacities and tools and improving coordination between national and local levels. The National Society participated in consultation workshops held from 13 to 18 March 2025 to enhance national response mechanisms, focusing on updating response plans and ensuring integration with community-based actions.

IFRC network joint support

The IFRC supported the Haiti Red Cross Society by facilitating Early Warning for All (EW4All) workshops and contributed to a gap analysis on early warning systems. The IFRC identified needs in local response capacities and tools and provided input to the National Society improve coordination between national and local levels. Additionally, the IFRC conducted consultation workshops to update response plans and ensure integration with community-based actions.

Disasters and crises

For real-time information on emergencies, visit IFRC GO page: [Haiti](#)

In the first half of 2025, the IFRC Disaster Response Emergency Fund ([IFRC-DREF](#)) was utilized for a complex emergency in Haiti.

1.

NAME OF THE OPERATION	Haiti Complex Emergency
MDR-CODE	MDRHT021
DURATION	9 months (13 May 2024 to 28 February 2025)
FUNDING ALLOCATION	CHF 686,691
PEOPLE TARGETED	11,670 people
LINK TO OPERATION UPDATE	DREF operational update

The [IFRC-DREF](#) allocation of CHF 686,691 in May 2024 supported the Haiti Red Cross Society in assisting 11,670 people affected by armed violence and escalating gang attacks in Port-au-Prince, which have displaced over 362,500 people and severely disrupted security, essential services and livelihoods. The National Society supported the targeted people over a nine-month period with assistance including multi-purpose cash transfers, the provision of first aid and ambulance service, as well as psychological support. Assistance also comprised the installation of sanitation facilities, distribution of hygiene kits and other sanitation items to affected communities and awareness-raising sessions focused on the prevention of gender-based violence and protection against sexual abuse and exploitation.

Progress by the National Society against objectives

During the first half of 2025, the Haiti Red Cross Society strengthened [disaster preparedness](#) and enhanced collaboration for articulated emergency response. It coordinated Movement support amidst complex and prolonged crises affecting the Haitian population. The Haiti Red Cross Society also advanced the implementation of the project ‘Scaling Up Local Action: Immediate Relief and Strengthened Preparedness for Vulnerable Populations in Haiti’, focusing on improving preparedness and relief capacities. Additionally, the National Society concluded immediate response actions initiated in 2024 under a nine-month operation that addressed urgent needs during the crisis and supported affected communities through comprehensive interventions.

IFRC network joint support

The **IFRC** supported the Haiti Red Cross Society with its Disaster Response Emergency Fund (IFRC-DREF) mechanism. It provided support to the National Society in disaster preparedness and facilitated collaboration for articulated emergency response.

Health and wellbeing

Progress by the National Society against objectives

In this reporting period, the Haiti Red Cross Society continued to respond to the complex emergency in Haiti. The National Society continued to assist internally displaced persons through specific psychosocial support sessions and educational games such as Tè Malè at intervention sites, promoting awareness of Psychological First Aid and encouraging appropriate behaviours during emergencies and stressful events. These activities provided a safe environment where participants felt listened to and supported while addressing the considerable psychological and social stress caused by displacement, hardships and uncertainty about the future. The Haiti Red Cross Society strengthened its approach by engaging volunteers trained in psychosocial support to deliver targeted assistance and integrate mental health considerations into community resilience efforts. The Haiti Red Cross Society also strengthened the capacity

of volunteers and community members involved in field activities, particularly those related to health, by providing training in first aid, epidemic control and Safer Access and violence de-escalation.

IFRC network joint support

The IFRC supported the Haiti Red Cross Society in implementing psychosocial support activities and awareness sessions on Psychological First Aid at intervention sites through its Disaster Response Emergency Fund ([IFRC-DREF](#)) mechanism.

The Haiti Red Cross Society promoting the benefits of cholera vaccine under the Building Trust project (Photo: IFRC)

Values, power and inclusion

Progress by the National Society against objectives

During the reporting period from January to June 2025, the Haiti Red Cross Society focused on training and orienting its volunteers in [Community Engagement and Accountability \(CEA\)](#) and [Safer Access](#). The National Society disseminated information and key messages about the complex emergency in Haiti. At the same time, the National Society organized community meetings at targeted sites sheltering internally displaced people.

IFRC network joint support

The IFRC provided support to the Haiti Red Cross Society in strengthening Community Engagement and Accountability.

ENABLING LOCAL ACTORS

Strategic and operational coordination

IFRC membership coordination

IFRC membership coordination involves working with National Societies to assess the humanitarian context, agree on common priorities and jointly develop common strategies. This includes addressing issues such as obtaining greater humanitarian acceptance and access, mobilizing funding and other resources, clarifying consistent public messaging and monitoring progress. It also entails ensuring that strategies and programmes in support of people in need incorporate clarity of humanitarian action while linking with development assistance and contribute to reinforcing National Societies in their respective countries, including through their auxiliary role.

Currently, the following participating National Societies are supporting the Haiti Red Cross Society as it leads a multi-sectoral and multi-location response effort:

The **American Red Cross** helps strengthen the Haiti Red Cross Society's work on climate resilience through the Early Warnings for All (EW4All) initiative.

The **Canadian Red Cross** seeks to continue supporting the Haiti Red Cross Society's efforts in climate resilience, disaster and crisis response, health and National Society development.

The **Netherlands Red Cross** supports the Haiti Red Cross Society in the areas of climate and environment as well as disaster and crisis response.

The **Spanish Red Cross** provides support to the Haiti Red Cross Society in the areas of climate and environment, disaster and crisis response, health and water, sanitation and hygiene (WASH).

The **Swiss Red Cross** plans to maintain its support to the Haiti Red Cross Society through initiatives in health, disaster and crisis response and National Society development. For 2025, its operations will continue to be based primarily in Port-au-Prince, with a focus on strengthening the sustainability of the National Society.

Movement coordination

The Haiti Red Cross Society ensures regular exchanges with the IFRC, the International Committee of the Red Cross and participating National Societies, for the alignment of support and action between Movement partners. In times of emergencies, closer coordination is organized. This is carried out in line with the Strengthening Movement Coordination and Cooperation ([SMCC](#)) principles and the newly adopted [Seville Agreement 2.0](#).

In Haiti, **the ICRC** works in the metropolitan area of Port-au-Prince where armed violence has affected access to basic services, such as health care and safe water. It also aims to address life threatening situations through humanitarian dialogue with all parties involved. The ICRC supports and works with the Haiti Red Cross Society in activities that improve access, acceptance and security of its operations ([Safer Access Framework](#)), and on [restoring family links \(RFL\)](#) and management of the dead. The ICRC also supports the National Society of ambulance services.

External coordination

In line with its [auxiliary role](#), the Haiti Red Cross Society works closely with national, provincial and local authorities. It is a member of all committees of the National Disaster and Risk Management System and a permanent member of the National Emergency Operations Centre.

The Haiti Red Cross Society also takes part in coordination for health emergencies, under the lead of the National Emergency Operation Centre, in support of the Ministry of Public Health and Population. Coordination for health emergencies includes representatives from several government ministries, along with the Pan-American Health Organization (PAHO) and World Health Organization (WHO). Coordination for health emergencies also typically includes regular bilateral meetings with representatives of the Ministry of Public Health and Population, the Permanent Secretariat for Disaster Risk Management., WHO and the United Nations Office for the Coordination of Humanitarian Affairs (OCHA).

In emergency situations involving support from international humanitarian actors, the IFRC and the National Society participate in the established coordination and clusters. For the recent earthquake operation, the IFRC response team participated in local and national-level taskforces to address health, water, sanitation and hygiene, shelter and non-food items, protection, including prevention of sexual and gender-based violence and child protection and protection against sexual exploitation and abuse. IFRC also participated in the IT/telecommunications and cash working groups. To collectively share information on security risks and how to mitigate them, the IFRC participated in a security coordination group with other international organizations in Haiti.

National Society development

Progress by the National Society against objectives

During the reporting period, the Haiti Red Cross Society played a key role in improving coordination between health and civil protection authorities and communities and strengthened links between emergency response and long-term development programmes. The National Society worked to mobilize communities to become more resilient and build capacities to prepare for and respond effectively to disasters and crises.

IFRC network joint support

The IFRC supported the Haiti Red Cross Society in preparedness activities, resilience building and capacity development for effective disaster and crisis response.

Humanitarian diplomacy

Progress by the National Society against objectives

In the first half of 2025, the Haiti Red Cross Society worked to put in place humanitarian diplomacy policies aimed at achieving effective humanitarian objectives, including ensuring that the interests of vulnerable people are more frequently considered by decision-makers. The National Society promoted humanitarian diplomacy through awareness-raising, negotiation, communication, formal agreements and other measures.

IFRC network joint support

The IFRC worked closely with the Haiti Red Cross Society to implement humanitarian diplomacy policies and support efforts to achieve effective humanitarian objectives. It also highlighted the emergency situation during the escalation of risks and contributed to coordination efforts in response to deteriorating security and humanitarian conditions.

Q4. AFFECTED PERSONS (PEOPLE REACHED)

Q5. PARTICIPATION AND ACCOUNTABILITY FOR AFFECTED PEOPLE – COMMUNITY ENGAGEMENT AND ACCOUNTABILITY

See Strategic Priority on 'Values, power and inclusion' under Q3: MEASURING RESULTS OF THE IFRC NETWORK ACTION

Q6. RISK MANAGEMENT

This information is not available in Mid-Year Reports

Q7. EXIT STRATEGY AND SUSTAINABILITY

See Strategic Priorities or Enabling Local Actors, where relevant under Q3: MEASURING RESULTS OF THE IFRC NETWORK ACTION

Q8. LESSONS LEARNED

Nothing to report

ANNEX 1. IFRC APPLICATION OF THE 8+3 REPORTING TEMPLATE

The IFRC network structures its result-based management along five Strategic priorities and four Enabling functions, developed based on the IFRC network's [Strategy 2030](#):

IFRC network Strategic Priorities	IFRC network Enabling Functions
SP 1 - Climate and environment	EF 1- Strategic and operational coordination
SP 2 - Disasters and crises	EF 2 - National Society development
SP 3 - Health and wellbeing	EF 3 - Humanitarian diplomacy
SP 4 - Migration and displacement	EF 4 - Accountability and agility
SP 5 - Values, power and inclusion	

The Federation-wide results matrix provides a standard way for the IFRC network to measure its progress towards Strategy 2030 implementation and supports consistent quality of the IFRC network planning, monitoring and reporting. To further advance coherence in monitoring across the IFRC network, a [Federation-wide Indicator Bank](#) has been developed and integrated into the Federation-wide monitoring systems for emergencies and longer-term work, structured along the Federation-wide results matrix as well. Signatory of the Grand Bargain Agreement, the IFRC has committed to its monitoring and reporting standards through integration of the [8+3 reporting template](#) contents into its results-based management approach. The following mapping demonstrate the way in which this report aligns with 8+3 reporting:

8+3 template	IFRC network Mid-Year Report (with variance in structure in red)
Core Questions	
1. Overall Performance	Overall Performance
2. Changes and Amendments	Changes and amendments
3. Measuring Results	Measuring Results
4. Affected Persons	Cover pages with indicators values
5. Participation & AAP	Under Q3 Strategic Priority 5: Values, power and inclusion – Community Engagement and Accountability
6. Risk management	Risk management
7. Exit Strategy and Sustainability	Under Q3 sub-sections by Strategic Priority/Enabling Function where relevant
8. Lessons Learned	Lessons learned
Additional Questions	
1. Value for Money/ Cost Effectiveness	Not included in mid-year reports
2. Visibility	Not included in mid-year reports
3. Coordination	Under Q3 Enabling Function 1: Strategic and operational coordination
4. Implementing Partners	Cross-cutting, with a focus on support to localization through the Q3 Enabling Functions 1 to 4
5. Activities or Steps Towards implementation	Cross-cutting in Q3 Strategic Priorities and Enabling Functions
6. Environment	Under Q3 Strategic Priority 1: Climate and environment

The International Federation of Red Cross and Red Crescent Societies (IFRC) is the world's largest humanitarian network, with 191 National Red Cross and Red Crescent Societies and around 15 million volunteers. Our volunteers are present in communities before, during and after a crisis or disaster. We work in the most hard to reach and complex settings in the world, saving lives and promoting human dignity. We support communities to become stronger and more resilient places where people can live safe and healthy lives, and have opportunities to thrive.

DATA SCOPE AND LIMITATIONS

- **Timeframe and alignment:** The reporting timeframe for this overview is covering the period from 1 January to 30 June 2025. However, due to the diversity of the IFRC and differences in fiscal years, this coverage may not fully align for some National Societies.
- **Financial overview:** This overview consolidates data reported by the National Society and its IFRC network partners, as well as data extracted from IFRC's financial systems. All reported figures should include the administrative and operational costs of the different entities. The financial data with a grey background is solely reported by the National Society, including the funding sources. Financial reporting is often times estimated depending on availability of financial figures, closing of financial periods and may be incomplete. 'Not reported' could sometimes mean 'not applicable'. Also note that funding requirements are already reflected in the published 2025 IFRC network country plan. The total funding requirements show what the IFRC network has sought to raise for the given year through different channels: funding through the IFRC, through participating National Societies as bilateral support and through the host National Society from non-IFRC network sources. All figures should include the administrative and operational costs of the different entities.
 - » Host National Society funding requirements not coming from IFRC network sources can comprise a variety of sources, as demonstrated when reporting on income in the IFRC Federation-wide Databank and Reporting System
 - » Participating National Society funding requirements for bilateral support are those validated by respective headquarters, and often represent mainly secured funding
 - » IFRC funding requirements comprise both what is sourced from the IFRC core budget and what is sought through emergency and thematic funding. This includes participating National Societies' multilateral support through IFRC, and all other IFRC sources of funding
- **Missing data and breakdowns:** National Societies have diverse data collection systems and processes that may not align with the standardized indicators. Data may not be available for some indicators, for some National Societies. This may lead to inconsistencies across different reporting tools as well as potential under or over-estimation of the efforts led by all.
- **Reporting bias:** The data informing this Federation-wide overview is self-reported by each National Society (or its designated support entity) which is the owner and gatekeeper, and responsible for accuracy and updating. IFRC tries to triangulate the data provided by the National Societies with previous data and other data in the public domain.
- **Definitions:**
 - » **Local units:** ALL subdivisions of a National Society that coordinate and deliver services to people. These include ALL levels (provincial, state, city, district branches, sections or chapters, headquarters, and regional and intermediate offices, as well as community-based units)
 - » **Branches:** A Branch has its roles, responsibilities and relationship with the National Headquarters defined through the National Society's Statutes, including the level of autonomy given, especially in the area of its legal status, mobilising local resources and building local partnerships, and the decisions it makes. It has a local-level decision-making mechanism through its Branch members, board and volunteers, equally defined through the National Society's Statutes
