## 2025-2027 IFRC network country plan **extract**

Multi-Year Funding Requirement **CHF 56.8M**

20 January 2025

### In support of the Angola Red Cross

**18**

National Society branches

**77**

National Society local units

**95**

National Society staff

**10,000**

National Society volunteers

### People to be reached

**100,800**

Ongoing emergency operations

**66,000**

Climate and environment

**83,000**

Disasters and crises

**1.1M**

Health and wellbeing

**33,000**

Migration and displacement

**362,000**

Values, power and inclusion

### IFRC network multi-year focus

#### Emergency response

- Disease outbreak

#### Longer term needs

- Climate change adaptation

#### Capacity development

- Leadership development • Internal system strengthening • Branch development
- Humanitarian diplomacy • Resource mobilization
- Youth and volunteering management

Italian Red Cross

### IFRC Appeal codes

Emergency Appeal:

**MDRS1003\*** Mpox epidemic

Long-term needs:

**MAAUG002**

*\*Due to the evolving situation and the regional scope of the appeal, country-specific funding requirements are not yet reflected on the cover page*

# NATIONAL SOCIETY PROFILE

As per 2024 Plan. To be updated in full 2025 Plan, as per need

The **Angola Red Cross** was established in 1978 and admitted as a member of the International Federation of Red Cross and Red Crescent Societies (IFRC) in 1986. The Angolan Red Cross serves as an auxiliary to the Angolan public authorities and complements the Government's efforts in humanitarian and development sectors. The National Society has a robust and trusted relationship with the Government of Angola, which relies on it for humanitarian aid in times of crises.

The Angola Red Cross has its headquarters in Luanda and is organized into 18 branches, one for each provincial capital, covering 28 municipalities nationwide. It has a network of 4,665 volunteers and 77 staff members, and its priorities and strategic areas of focus include health, disaster management,

international humanitarian law, and organizational development.

Through its various activities, the Angola Red Cross is able to respond effectively to natural disasters and strengthen recovery efforts, while also providing essential health services. Key achievements over the past year include directly reaching 1,600 households (8,000 people) with disaster response and early recovery programs. Additionally, the Angola Red Cross supported the Ministry of Health with blood campaign that reached more than 2,000 donors and engaged nearly 221,308 individuals through community mobilization campaigns and RCCE (Risk Communication and Community Engagement) activities.

Angola Red Cross branch distribution

*The map does not imply the expression of any opinion on the part of the IFRC or the National Society concerning the legal status of a territory or its authorities*

## The International Federation of Red Cross and Red Crescent Societies (IFRC)

is the world's largest humanitarian network, with 191 National Red Cross and Red Crescent Societies and around 16 million volunteers. Our volunteers are present in communities before, during and after a crisis or disaster. We work in the most hard to reach and complex settings in the world, saving lives and promoting human dignity. We support communities to become stronger and more resilient places where people can live safe and healthy lives, and have opportunities to thrive.

### About the plan

The plan reflects the priorities of the host National Society, the IFRC and National Societies providing international support, for 2025 and subsequent years. It is aligned with IFRC [Strategy 2030](#), representing the collective ambitions of the IFRC membership, and is the result of a joint planning process and will serve for joint monitoring and reporting. It will be revised on an annual basis to adjust priorities and funding requirements to the needs in-country.

### Explanatory note on funding requirements and definitions

- The total funding requirements show what the IFRC network seeks to raise for the given year through different channels: funding through the IFRC, through participating National Societies as bilateral support, and through the host National Society from non-IFRC network sources. All figures should include the administrative and operational costs of the different entities
- Host National Society funding requirements not coming from IFRC network sources can comprise a variety of sources, as demonstrated when reporting on income in the [IFRC Federation-wide Databank and Reporting System](#)
- Participating National Society funding requirements for bilateral support are those validated by respective headquarters, and often represent mainly secured funding
- IFRC funding requirements comprise both what is sourced from the IFRC core budget and what is sought through emergency and thematic funding. This includes participating National Societies' multilateral support through IFRC, and all other IFRC sources of funding
- Figures for the years beyond 2025 most often represent partial requirements that are known at time of publication. Many National Societies have annual internal approval processes for funding requirements, and lower figures do not mean a decrease in funding requirements in future years
- Missing data and breakdowns: data may not be available from all IFRC network members for funding requirements. This may lead to inconsistencies across different reporting tools as well as potential under-estimation of the efforts led by all
- Reporting bias: the data informing this Federation-wide overview is self-reported by each National Society (or its designated support entity) which is the owner and gatekeeper, and responsible for accuracy and updating. IFRC tries to triangulate the data provided by the National Societies with previous data and other data in the public domain
- **Definitions:**
  - » **Local units:** ALL subdivisions of a National Society that coordinate and deliver services to people. These include ALL levels (provincial, state, city, district branches, sections or chapters, headquarters, and regional and intermediate offices, as well as community-based units)
  - » **Branches:** A Branch has its roles, responsibilities and relationship with the National Headquarters defined through the National Society's Statutes, including the level of autonomy given, especially in the area of its legal status, mobilising local resources and building local partnerships, and the decisions it makes. It has a local-level decision-making mechanism through its Branch members, board and volunteers, equally defined through the National Society's Statutes
